

Can this *fast-lane* test report processing? ... Maybe

But with BreakTest you get consistency of vast and ruthless test report process automation with actionable item alerts quickly announced on BreakTest's dashboard.

BreakTest

Software for Soils & Concrete Testing

403-612-1849 • info@mezintel.com

12 ways BreakTest's dashboard filters actionable test reports and empowers you to quickly reassign status, collaborate, review, and send.

BreakTest Dashboard

Count

Category	Count
NEW TESTS	15
NEEDS ACTION	8
UPDATES ON CLOSED TESTS	1
NEW DATA	(87) 16
SIGNED FOR DISPATCH	23

1. New test reports for header & location data review

2. Reports with issues that need resolving

3. Archived reports that got altered

4. Reports with fresh results that need approval

5. Signed reports ready for sending

6. Sticky notes that always accompany the report

7. Results summary and coloured pass/fail indication

8. Processed reports crossed-out and removed on refresh

9. Chain of custody for all events on each report

10. Edit report's status

11. Sequence of events with the who, what, and when

12. Double-click to open the test reports directly from the dashboard
