

By choosing Mezintel Gamma, you automatically get dedicated support tools & services

WHY

Your MWD/LWD field operations are mission critical,
running 24/7, and demanding of high uptime.

HOW

In recognition of this fact, Mezintel dedicates 24/7 support
lines to listen, troubleshoot, and resolve incident calls.

MEZINTEL GAMMA

MWD GAMMA SOFTWARE OPERATIONS CHALLENGES

- ⚡ MWD Gamma field operations **downtime is expensive** and will negatively affect your service reputation
- ⚡ MWD Gamma operators **must be up-&-running fast** regardless of type of MWD/EDR platform used
- ⚡ Routine everyday tasks such as Gamma editing, re-logging, PDF log printing LAS import/export, and survey analysis are to **have quick links and must execute flawlessly**
- ⚡ **Built-in tools + 24/7 support services** for trouble shooting and recovery from glitches in EDR & MWD interfaces, or due to any other anomaly are a must

THE BENEFITS OF MEZINTEL GAMMA IS ASSURANCE AND SATISFACTION IN MEETING PRESSING NEEDS OF MWD FIELD OPERATIONS

Mezintel Gamma track record of seven years development & field testing produces repeatable and consistent results against the most pressing needs in MWD gamma logging.

HIGHLIGHTS

- ✓ 3-Step startups using customizable templates
- ✓ 1-Screen view of all vital MWD Job data
